Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claim 11 is objected to because of the following informalities: In line 5, after the word "least", the word -- two -- has been inserted. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are replete with indefiniteness that is too numerous to point out in every instance. The following examples are provided for the applicant use in making corrections wherever appropriate but not specifically pointed to.

Regarding claim 11, line 10, it is not clear if the central hole is provided in one of the bevel gears or all of the bevel gears. In line 12, it is not clear if the "groove" the same as one of the grooves in line 4. In line 15, it is not clear if it is one of the bevel gears or all of the bevel gears that is drawn back due to centrifugal force. In line 17, it is not clear if the front or rear axle is inserted in the central hole of the bevel gear.

Regarding claims 12-15, there is lack of antecedent basis for limitations "the middle axles" as recited line 3 of claims 12 and 13 and line 4 of claims 14 and 15, "the rear of the cone" as recited in line 3 of claim 13, "the front of the cone" as recited in claim 14, "the shaft sections" and "the vertical wall" as recited in claim 15.

Regarding claim 18, it is not clear which end of the axle is in the form of a square cap.

Conclusion

Claims having the elements of claims 11-18 and which is definite per the conditions set forth in 35 USC 112, 2nd paragraph would be considered to avoid the prior art of record.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
